### Sanitary and health measures

Air France – KLM is taking a series of measures to keep you and our staff as safe as possible.

The wearing facial protection during boarding and on board is mandatory for Air France – KLM passengers. Passengers must ensure that they carry the required facial protection with them. Cabin crew will of course also wear facial protection.

Our on board service is adapted to limit the contact between passengers and our cabin crew as much as possible.

We have taken extra measures when it comes to the cleaning and maintenance of our aircraft before you embark. Every day, all our aircraft are thoroughly cleaned and sanitized with approved disinfectants.

During the flight, the air in our aircraft is continually renewed with fresh air drawn in from outside. Our aircraft are equipped with an air filtration system consisting of High Efficiency Particulate Air (HEPA) filters which capture 99,99% of viruses and bacteria, including coronaviruses, filtering all air in the cabin every 180 seconds.
